## 5 ADVANTAGES&DISADVANTAGE

- Advantages of internal recruitment

- Reduce time to hire
- Shorten onboarding times
- Cost less
- Strengthen employee engagement

- Disadvantages of internal recruitment

- Create resentment among employees and managers
- Leave a gap in your existing workforce
- Limit your pool of applicants
- Result in inflexible culture

## 6 APPLICATIONS

Application Implementation Methodology (AIM) is a system framework of related elements. It involves certain tasks, processes, phases and dependencies: A task is a unit of work, which results in a single deliverable which may take many different forms like reports, schedules, codes, or test results.

## 7 CONCLUSION

Towards the end of project implementation phase, the desired result of the project takes more and more shape: we integrate, test, and commission last sub-parts. The end product or service is essentially put together.

## 8 FUTURESCOPE

The project has a very vast scope in future. The project can be implemented on intranet in future. Project can be updated in near future as and when requirement for the same arises, as it is very flexible in terms of expansion. With the proposed software of database Space Manager ready and fully functional the client is now able to manage and hence run the entire work in a much better, accurate and error free manner. The following are the future scope for the project.
